Is it possible for undergraduate students to participate in research in the physics department? Yes! Please identify 3 or 4 faculty members whose interests match yours. Contact your top choice to express your interest and request a meeting. If there's currently no space for additional students in that group, don't give up! Continue down your list! For details about research topics, visit [http://www.physics.emory.edu/home/research/index.html](http://www.physics.emory.edu/home/research/index.html).
